Day 22  
40di (7)

Drawing by Frank Paul

### The November 'Seven Dials' puzzle

Clues directed di are diametric and usually run from the number indicated on one side of a dial through the centre to the other side of the dial. Clues directed C are circular, running from the number around the dial in a clockwise direction. On occasions, antiC indicates an anti-clockwise direction. Clues directed d have conventional down solutions. Those directed 'up' start from a number and run upwards. Solvers should note that in Day 44, the "33di-2" direction is towards cell 34.
