December 2009 Sirius

A Combination Lock 3D Crossword.
 Four rotating dials.
 Each dial has one 12 letter circular (C) anagram.
 These run clockwise, starting anywhere.
 Three 5 letter solutions are diametric (Di),
 running from any point on the perimeter
 through the centre to the other side of the dial.
 Down clues are conventional.
 Clues in alphabetical order of their solutions.
 The dials rotate as in a combination lock.
 Can you crack it? Merry Christmas!
