

March Extra 2015 Sirius

Grid by
Sirius

28 clues with no directions lead to 27 5-letter solutions which should be jigsawed into the grid. Solutions have conventional directions - either across, down or away. One clue has a solution which does not fit the grid. Clues are presented in alphabetical order of their solutions.

One clue is labelled 'ac'. This does not help the solver but does reduce the number of different presentations for the marker.
