Grid by Sirius
in memory of '45'

1895

2000

This puzzle noted the 150th anniversary of the birth of HG Wells and was presented appropriately with a fourth dimension where THE TIME MACHINE appears as the solution proceeds. Numbered solutions in the tr direction were symbols of chemical elements, indicated by their atomic number. Other works in the grid: The Chronic Argonauts, The Outline of History, The Country of the Blind, The War of the Worlds, The History of Mr Polly and The Invisible Man (No directions and an invisible clue). In memory of Ray Parry-Morris, a terrific contributor to our project with his amazing 3D grid designs. Thank you so much Ray. Sirius
