

April 2022 Tramp Gin

This puzzle celebrates a 50th anniversary.

At each level there are two 8-letter solutions which cross the dial. The two central letters are placed together in the circular core. Both solutions share the same two letters, though not necessarily in the same order. The two other 5-letter diametric solutions at each level employ only one of the two core letters.

The completed grid contains 14 core letters which anagram to the theme (2,5,1,6,{1},{4}) except for the last two words, which are (appropriately) missing (though our calendar is full of such things). This phrase must be submitted with your entry.

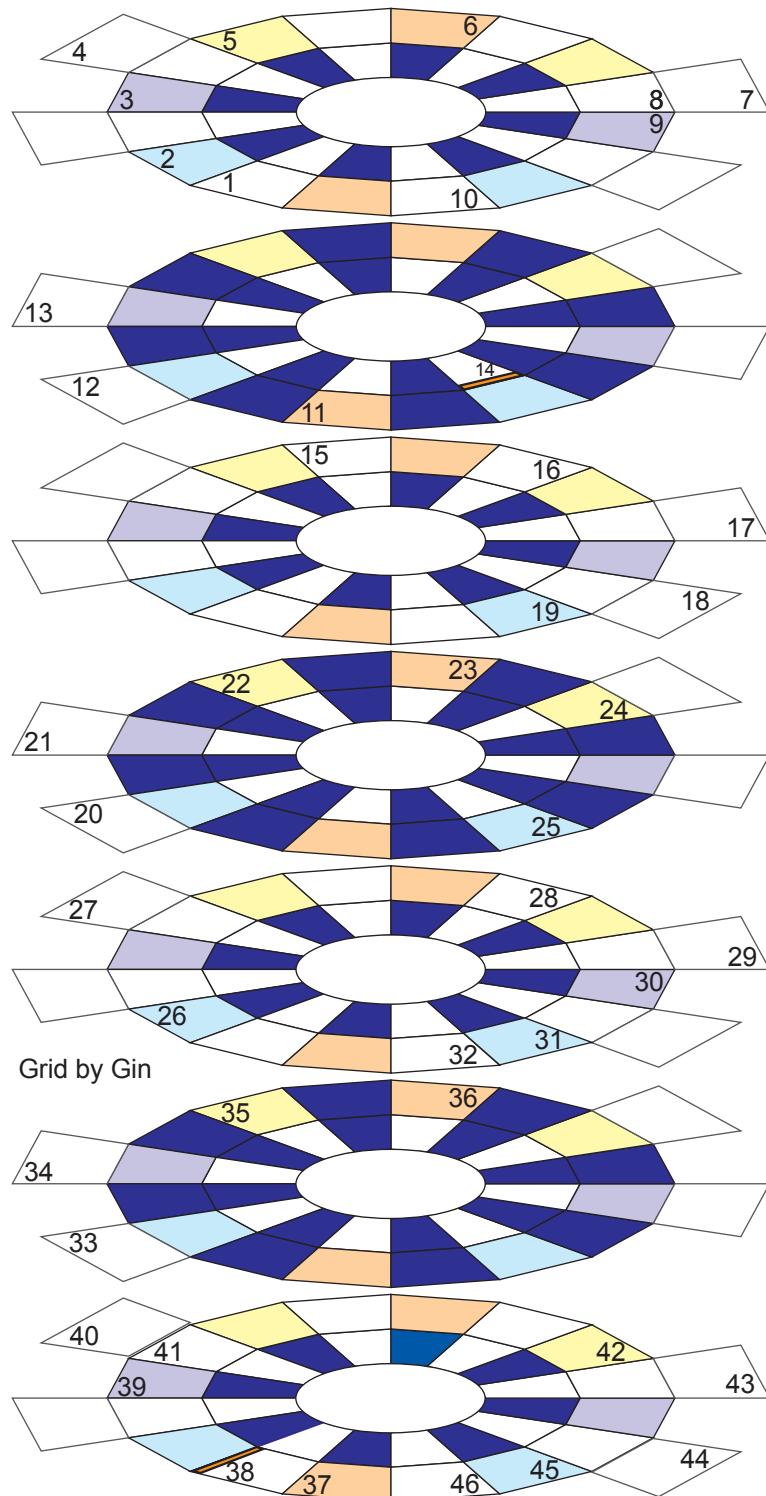

Twelve asterisked thematic clues lack thematic definition. Eight of these are characters associated with the theme, three are thematic activities and one is the home of the theme.

Clues are presented in alphabetical order of their solutions.
