

November 2023 Soup

Grid by
Soup

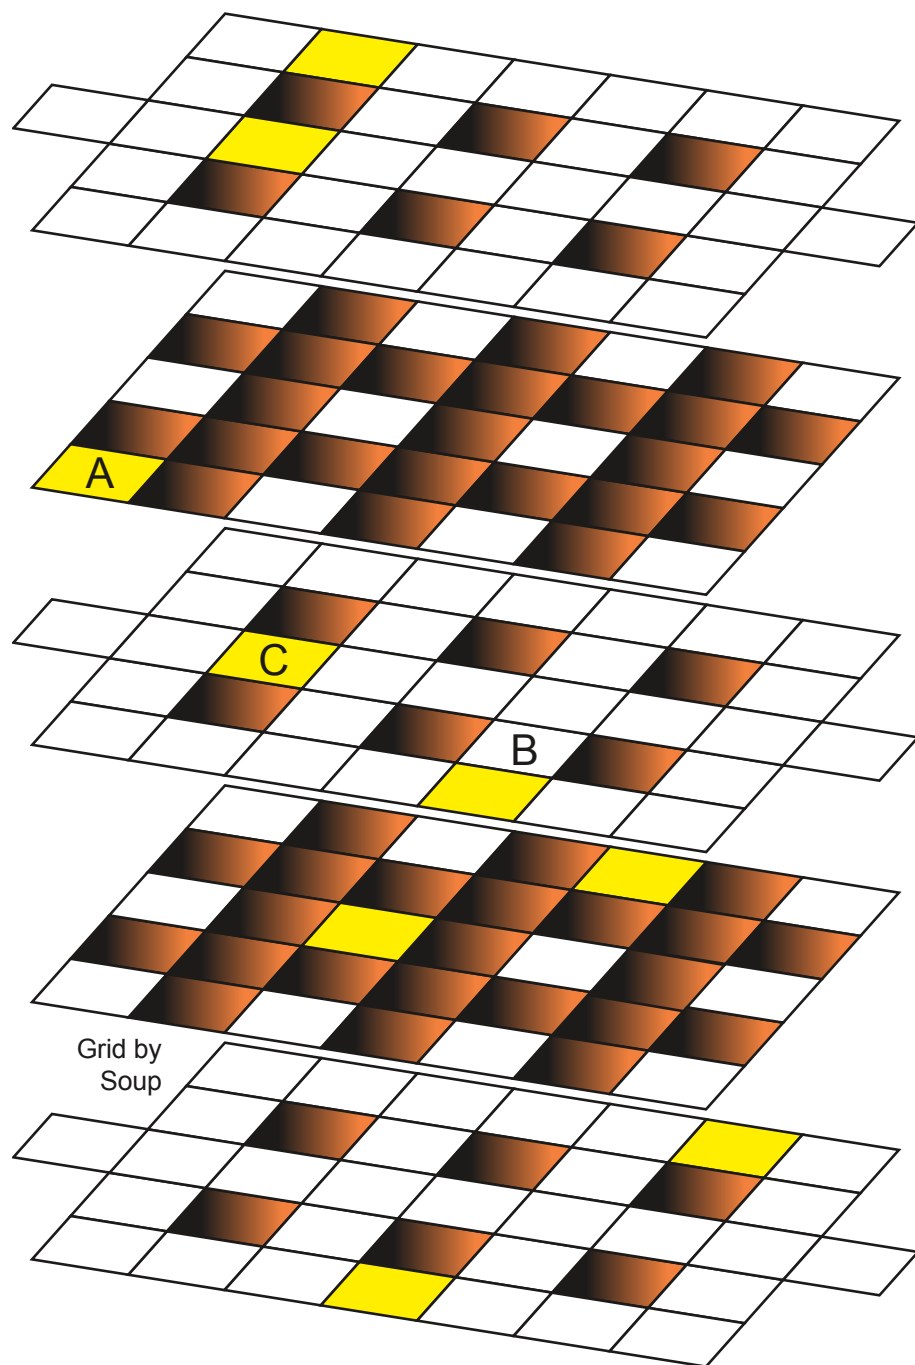

Clues are listed in alphabetical order of their solutions, which should be fitted into the grid jigsaw-wise wherever they will go.

Solutions may read across, back, towards, away, up or down but there are no snakes. Each letter of the alphabet is used to start at least one solution; where two or more solutions begin with the same letter, they start from the same square in the grid.

Letters in the yellow squares can be anagrammed to an appropriate word.
